DATE MAILED: 08/11/2003

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Examiner acknowledges receipt of amendment b and formal drawings filed 07/08/03.

Claims 1, 3-7, 16, 18-33 are pending.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Ahola et al. (WO 97/45367) discloses a method of producing biodegradable silica fiber at a starting sol viscosity of 10 mPa.s. The starting sol viscosity in Ahola is lower than the starting viscosity 1,000 to 15,000 mPa.s and 2,000 to 50,000 mPa.s and thus the method of Ahola differs from the method of the instant claims. Lin et al. (US 4,919,871) prepares silica fibers where ammonia the sol is treated with ammonia and this treatment condenses the Si-OH groups to hydrophobic siloxane groups and thus the resulting fiber of Lin is not biodegradable. The method of Lin differs from the method of the instant claims. Therefore, the pending claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Blessing M. Fubara whose telephone number is 703-308-8374. The examiner can normally be reached on 7 a.m. to 3:30 p.m. (Monday to Friday).
